Clinical Psychology

CPY 2C 08—RESEARCH METHODOLOGY

(2019 Admissions)

Time : Three Hours

Maximum : 30 Weightage

**General Instructions**

1. *In cases where choices are provided, students can attend **all** questions in each section.*
2. *The minimum number of questions to be attended from the Section / Part shall remain the same.*
3. *There will be an overall ceiling for each Section / Part that is equivalent to the maximum weightage of the Section / Part.*

**Section A**

*Answer any **eight** questions.  
Each question carries 1 weightage.*

1. Scientific research.
2. Research problem.
3. Field experiments.
4. Null hypothesis.
5. Type I error.
6. Grey literature.
7. Index card.
8. Questionnaires.
9. Small N design.
10. ANOVA.
11. Grounded theory.
12. Thematic analysis.

(8 × 1 = 8 weightage)

**Turn over**

**Section B**

*Answer any four questions.*

*Each question carries 3 weightage.*

13. Distinction between experimental and non experimental research.
14. Ethical problems in research.
15. Characteristics of a good hypothesis.
16. Purpose and sources of literature review.
17. Basic principles un experimental designs.
18. Expost facto research design.
19. Principles of qualitative research.

(4 × 3 = 12 weightage)

**Section C**

*Answer any two questions.*

*Each question carries 5 weightage.*

20. Describe the steps to carry out scientific research.
21. Discuss the characteristics, sources and types of research problem.
22. Explain observation and interview as methods of data collection.
23. Give an account of pre, true and quasi experimental designs.

(2 × 5 = 10 weightage)
